Kimia Samiee

Artificial Intelligence PHD student
Tehran, Tehran Province, Iran

Summary

I am a machine learning researcher with expertise in computer vision and deep learning. I have several years of experience in developing and implementing machine learning models and algorithms for various applications. My skills include data processing, feature engineering, data sciences, model training and evaluation, as well as deploying machine learning models.

Examples of projects that I have worked on so far have been in the field of object detection, face recognition, emotion detection, liveness detection, video summarization, medical image processing, I am also experienced in developing Django-based services and REST APIs.

Education

Shahid Beheshti University

Master's degree, Artificial Intelligence · (2018 - 2020)

Shahid Beheshti University

Doctor of Philosophy - PhD, Artificial Intelligence
